

Some words about us

We are a small family café. Sure, you can hear that everywhere, but in this case it's actually true. The café is run by a mother and a daughter and, of course, there is always a father who likes to give advice. Our employees became our family. That's how we want our customers to feel as well. We want to make them feel at home.

You can have amazing coffee with us. Whether Italian espresso or filtered coffee, we prepare coffee from Czech and nonCzech coffee brands. We offer a lot of amazing wines which we personally select throughout Europe and then import it for you.

We don't follow instructions and recipes much. We come up with it ourselves and cook what tastes good to us to make dishes we love. I, the daughter Karolina, love Asia and Asian food and so we also offer Asian food here. My mother, Jiřina, loves Italy and Italian food so we often have tasty Italian meals such as pasta or risotto. But if you love something that we could cook for you, feel free to let us know and maybe we'll add it to our menu permanently.

You know what's gorgeous? Our amazing inner yard garden with two huge chestnut trees. Here you can escape from the big city bustle and relax in peace. You can even ask to borrow a grill!

If you want to share some feedback with us, that would be amazing. You can share it everywhere or talk directly to our staff. Positive feedback will make us very happy. But if you have any complaints, share those too, so we can learn and make you even happier.

Tastings and events

We regularly hold special evenings with wine tastings or special favorite meals with seafood. Follow us on Facebook, Instagram, or share your email address with us, and we will send you an invitation. 10/10 taste buds highly recommend it!

We can organise private wine tastings, events, or wedding parties for your needs. Ask the staff or contact us. We will share all the details with you.

Brunch

You can really take your time, it is a slow morning. Once you see what we have on offer, you'll be jumping out of bed for this amazing breakfast and refreshing drink, and aromatic coffee with notes of nuts and chocolate. You only need to get up, leave your nest, and we'll take care of the rest. Our breakfast is made with love and fresh homemade bread. No rubbery slices anymore! And if you're just continuing yesterday's party, what is holding you back from ordering mimosas? We guarantee you won't be hungry for lunch or dinner after this one, because you will be full like a queen (or king, if that's your thing)!

When should you come? Cmon, whenever you are ready! We cook and put together our lovely brunch every weekend for you because we all love big pompous and slow weekend breakfasts, so we've always got something special for you. You can always find the details about the brunch on our Facebook or our own website the day before. We look forward to seeing you here, you bumblebee!

Kosík

Kosík winemaking is heavily based on family traditions. Their ancestors planted the first vineyard more than a hundred years ago. They currently manage vineyards on 34 hectares, and for the last few years, the winery has completely eliminated herbicides from its repertoire. Their speciality is PIWI varieties, both red and white.

Special wine opening

Something is missing here! We temporarily offer some special bottles of wine openings for you here, which we usually sell bottled. But it seems that we do not have any for you now. Check out our wines sold by the glass.

Baláz

It is located in the wine village Dolní Dunajovice in the Mikulov wine-growing sub-region. In general, they try to work as gently as possible in the vineyards to minimize all chemical and technical interventions. Their goal is to produce the most natural wine. Along with the Kadrnka winery and other winemakers, they're members of the association of winemakers Dunajovské kopce.
